

**For Peter and Heidi and you Ladies –  
,Die neuen Nomaden des Wandels'  
For an eternal rhythm in change and painting  
For variety of cultures**

### **Big hug – big honor**

Please do it again and again ... Peter and Heidi!  
Because I felt warm and welcome – Thank you so much!  
I have been very glad to be with you all and with this carefully  
composed group of painters!

### **Home is where you start from**

I came with my horizon and left with an extended one.  
Peter knows how to make the difference between painting and  
painting, between copying and creating, cause at least we want  
more things to exist.  
He is the living example for passion and awareness and he  
goes for it, authentically.

### **Everytime I paint a part of me - I take a piece of you!**

And – he wants to share with others. In creation he wants to be  
part of others and them to be part of him. A new and sensual  
access to biographies. We made us change and have left  
traces – in fact!

### **You can never hold back change and the luxury of ,MA', abandon and sensuality**

I got support in looking at me differently and work differently.  
It's luxury and a gift to have been able to be in a peaceful greek  
place and work on one's horizon in a direct and concrete and  
also in a poetical and philosophical way.  
I can see newly now – my lines, my structures, my MA, my  
relations and my colours inside and this makes me express  
myself differently, just observing what my hands are doing – the  
embassadors of my heart and soul.

## **Take a decision!**

If I would have to choose between painting and painting I would always choose the second one!

With my own horizon wide open and being honest with myself, feeling myself, the horizon will feed me with my shiny and my dark sides. This will make me paint with my rhythm and I will always survive.

It's a nutritious and attentive dedication and creation.

## **If you are not who you really are, you don't exist –**

### **Thank you all!**

For wolfcry and lyrics, for barriers and blockades, for sunlight and happiness, for vulnerability and for kairos,

for R.M. Rilke, Elliot and Paul Celan -

For ArtistArtist

Close your eyes and open the door to your studio ... all you see is a big MA

and I am sure:

Which is interconnected will not get lost!

Herzlich Lisa
